

**Ground in Portela -2 - ID - VT026**

**Area:** 1 180 m2

**Price:** 50 000 €

**Location:** Portela, near a Natural Reserve witch surrounds a magnificent lake created by Castelo do Bode's dam, 8 Km from Tomar. (Tomar is a historical city in the centre of Portugal with numerous cultural and architectural attractions).

**Description:** Peace of ground with all infrastructures near by (Peace number 2). One can build here 944m2.

This peace of land is very well located because it is close to the village of Portela where one can find the essential services available and to Tomar city. Still this peace of land is quite isolated and very much related with Nature. The fact that one can build so much in an area quite near the lake makes this ground very especial.
